Tri - Star

SDS-plus hammer drill

The unique geometry of the carbide tip with 3 cutting edges make the Tri-Star a hammer drill with ultra low resistance, extreme rebar resistance, quick dust removal and high power transmission.

These characteristics guarantee faster drilling than comparable drills and longer tool life up to as much as 1500 holes in concrete.

Tri-Star hammer drills: more holes at lower cost

Tri-Star hammer drills for:

(reinforced) concrete
clinker
brick work
marble
natural stone

The advantages:

ultra low resistance
quick dust removal
extreme rebar resistance
high power transmission
less wear, resulting in long tool life
